A newcomer on the sunny island of Phuket, this show-stopping “super villa” impresses with seven bedrooms and 2.5 acres of gardens, not to mention your own personal waterfall. The luxurious estate also offers panoramic views of the Andaman Sea and sleek, contemporary architecture that would look right at home in a James Bond film.

From the alfresco Thai *salas* (living room) and 98-foot infinity pool to grand spiral staircases, a movie theater, pool table, private gym, villa manager, full-time chef and army of service staff, this villa plans for your every need and then some.
